Expanding Your Vision

Are you poised to start planning and building that once-in-a-lifetime showstopper home, the home you've been planning for and dreaming about for so long? Witness the spacious sophistication of Lake Country's Horizons Collection, featuring sprawling log home plans that boast valuted ceilings, dramatic prow fronts, expansive layouts and bright, airy lofts. The total effect – a symphony of style, luxury and casual elegance.

Explore the dramatic 3936 square foot layout of the Panorama, with its sprawling yet functional floor plan that tastefully accommodates a home office, studio or craft area. In the heart of this stunning home, a grand entranceway and roomy living room lead upstairs to a 480 square foot loft, awash in natural light - ideal space for creative productivity. The left wing features four ample bedrooms, including the master with walk-in closet and ensuite, as well as the main bath and a separate laundry room. The right wing leads to a spacious kitchen and dining room, family room, pantry, bathroom and oh-so-practical mud room.
